ABSTRACTED-PUB-NO: DE 19841615A

BASIC-ABSTRACT:

NOVELTY - A new medicinal wine, designated 'femina', is obtained by separately extracting specific medicinal plants (e.g. artemisia, stinging nettle, hop, camomile, wormwood, yarrow and hawthorn berries) with dry white wine, then mixing the extracts in amounts corresponding to the requirements of the patient to give a therapeutic dose.

ACTIVITY - Analgesic; sedative; hypnotic; tonic; gastrointestinal; antidiarrheal.

MECHANISM OF ACTION - None given.

USE - For alleviating the pain of premenstrual syndrome, including mastodynia and breast pain (claimed). Various extracts with different activities (e.g. hop, wormwood or artemisia extract having sedative and hypnotic activity; linden blossom, rose-hip or hawthorn berry extracts having a general tonic activity; and anise, fennel, yarrow, camomille or marigold extracts effective against

ADVANTAGE - The wine has a high content of the active components of the plants (e.g. higher than in herbal teas); can contain a desired combination of active components; and is stable for a long period without the need to add preservatives.
